Merriam Press World War II History WH3 First Edition (2014) The Artillery Branch is one of the most complicated of military science. Like the Engineers, it was a technically demanding field. All of the enlisted complements were highly skilled as well. During the war, recruits felt lucky to be assigned to the artillery. They figured it was safer than the infantry. With the exception of being a forward observer, they were correct. Although making up 16 of an infantry divisions strength, it only accounted for 3 of the casualties. The foot soldier thought anyone in the artillery lived a life of relative luxury. That situation changed during the Bulge. It was no longer a safe billet. Battery personnel were some of the first to get hit by enemy shells. The front line came to them as never before. German infantry and tanks bypassed the infantry screen and rolled up on their positions. In an age of indirect fire and advanced observation techniques, direct fire on a target became commonplace. Others, fighting with carbines and bazookas, held off many a thrust...
