Cause of Extinction X. Wolf Hunting in Pennsylvania XI Possible Re-Introduction XII. Superstitions XIII. Bravest of the Brave XIV. Catching Wolves With Fish Hooks XV. Historical Data I. PREFACE That a new book treating on the much-discussed wolf can be written at all the animal must be described from an entirely different point of view, else it would be superfluous. Happily the author feels that there is a side, an important one, to the wolfish character, which has been overlooked or perverted. It is a side decidedly favorable to the animal, to its inherent right to live, to be protected by mankind. The wolf of Pennsylvania accomplished much more good than harm. At the time when the Indians ranged the Continent and Nature's balance was perfect, the wolf played an important role. With the panther it preyed upon the weak and sickly wild animals and birds, preventing the perpetuation of imperfect types and the spread of pestilences. It kept up a high standard of excellence among the lesser creatures, was the great preserver of type and perfection. Wolves having no animals to prey on them killed the sick and weakly specimens of their own race, thereby keeping up the standard of strength and virility. Charles John Andersson, in his remarkable book. The Lion and the Elephant, in speaking of the lions of Central Africa said: Destroy them and the hoofed animals would perish in masses of...
