Level - beginning to advanced. 140pp. With extraordinary concision, this book presents, not only to pianists, but to any instrumentalist with a basic knowledge of music theory, the base of the pyramid of harmonic consciousness, starting with cycles, the basis for tonality, which is in turn the basis for modality - the very substance of popular music. Its principal merit lies in its discernment of the essential. If this book did not exist, it would have to be invented, so fundamental is its importance.
