## INNOVATIONS IN DESIGN: AHMEDABAD BUS RAPID TRANSIT SYSTEM (PAPERBACK)

Grantha Corporation, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book. Over the last decade in India, many cities have undertaken pathbreaking initiatives in resolving issues associated with urban transport, and, specifically, mass transit system. The Bus Rapid Transit System (BRTS) is now acknowledged as a key mode to help large-scale mobility of people. Today, eighteen cities in the country are at different stages of planning, design, execution and operation in their BRTS journey. Since the BRTS concept was new to India a decade ago, cities experimented in various ways with varying degrees of success. The Janmarg, as the BRTS is known in Ahmedabad, also explored many options before choosing its design approach. It was flexible in changing design elements even during the implementation stage. Every element was discussed, debated, and experimented with before a final decision. Many of these experiments led to innovations and best practices. Since its inauguration in October 2009, Janmarg has been accepted as the first complete BRTS in India. This book traces the design journey of Janmarg, the alternatives that were considered, the rationale underlying the choices made, the innovations it fostered and lessons for the future for Ahmedabad and for other cities. The volume will be valuable resource for researches as well as students. Published in association with Centre of Excellence in Urban Transport (CEPT University).
