Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.THERE ARE OVER 43,000 OSTEOPATHIC physicians in the United States, providing a system of medical care based on a philosophy that the human body has self-healing abilities. In order to facilitate those abilities, the osteopathic doctor practices a whole person approach. While the goal of traditional medical doctors is to treat specific symptoms, osteopathic physicians concentrate on treating the patient as a whole. It is important to make this distinction. They receive all the training and provide the same healthcare services as medical doctors (MDs). DOs understand how all the body s systems are interconnected and how each one affects the others. They also help patients develop attitudes and lifestyles that help prevent disease. Those who choose a career in osteopathic medicine are people who value taking a holistic approach to healing. As society shifts towards a greater understanding of what makes us sick and what our bodies are capable of, osteopathic physicians are seeing an increase in the number of patients they see. Osteopathy in the US is fully accepted as a mainstream medical career. Today, millions of Americans have chosen this type of individualized, compassionate...
