Loving Healing Press, United States, 2009. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Much discussion follows disasters and critical incidents about returning to normal, but normal is never the same again. Return to Equilibrium, involving integrating the event, its effects, meanings and recognition it s part of one s life can build a new balance and create a new enriched life. Good or bad, experience changes us. Integrating experience into our life creates a new balance. Re-establishing balance in life integrates the event as part of one s life, constructively developing a new normality. Return to Equilibrium is a goal of recovery. Military personnel (Regular, Reserve, National Guard) are deployed in Afghanistan and Iraq for various lengths and number of tours, leaving jobs, family and college for extended periods to serve our country. While deployed, they are in harm s way 24/7. Some are severely wounded physically. Many others are wounded emotionally and behaviorally. Family members are all affected by deployments. They are supported through Family Services groups during deployment. Veterans and families receive assistance upon return into the community. Veterans organizations provide additional support. Adjusting to changed lives and re-adjusting to families and community is not always smooth. How can communities better understand these adjustments, support returning veterans and become involved in re-integrating them back into communities? What resources are available? What is the role of mental health professionals? Who do they network and interact with? Do they have a role with other healthcare providers, public...
