

The Automotive Black Box Dockets

By -

MICAH. Paperback. Condition: New. 124 pages. Dimensions: 10.9in. x 8.5in. x 0.6in. This important compendium will be useful to anyone researching the history of automotive Event Data Recorder (EDR) technologies. The USDOT/NHTSA Federal docket documents begin April, 1999 and conclude May, 2007 - eight years! The reader can easily identify any of the 1112 docket documents. This compendium gathers the Federal docket documents that led to 49 CFR 563: Event Data Recorders into one document that could be used as a primary research resource. To appreciate the significance of these docket documents one should have a basic understanding of the Federal regulatory process. The Federal Register or FR is the official daily publication for rules, proposed rules, and other notices of Federal Departments and Agencies and organizations, as well as other government documents. A regulation or rulemaking is the name given to the process followed by Federal Departments and Agencies to formulate, amend, or repeal a regulation. A Federal regulation is generally an authoritative requirement issued by a Federal Department and Agency that implements a statute and has the force of law. The rulemaking process generally consists of a proposed rule stage and a final rule stage. For most categories of rulemaking, the Department or...

Reviews

An extremely wonderful pdf with perfect and lucid information. Better than never, though I am quite late in starting reading this one. Once you begin to read the book, it is extremely difficult to leave it before concluding.
