With the exception of the Bible there is no book which has so profoundly affected western civilization as the Corpus Juris. With these suggestive words Dean Walton begins his clear and interesting summary of the history of the Roman Law before Justinian. Intended as an introduction to the study in Montreal of the Roman law in its modern form, and especially as it appears today in the law of the Province of Quebec, it is equally valuable for one who is to learn the modern Civil law and for one to whom Roman law is of interest only as a wonderful and effective example of the human intellect applied to the complex affairs of an imperial civilization.
